

EXTREME CONCEPTS

2001 Mack Fleetliner

Ex Masters Milk unit

Purchased by us in Nov 2011 . Before sending to work we stripped and reraced the gearbox, had flywheel skimmed and fitted new clutch . Also unit was put over pits as it was purchased unregistered.

Got another yellow sticker in June for bald tyre and had engine mounts replaced and all torque rods on suspension along with other minor repairs.

470 hp with Mack 18 speed box. 46 160 diffs

Hydraulics , sidetipper controls, airconditioning works perfectly . Has lockable isolator.

As per contract conditions , this unit has been maintained free of oil leaks and is a reliable truck .

3.5 inch ballrace turntable.

Tare approx 8.8 tones .

106 Tonne rated upon application – to be confirmed by purchaser .
